

## COLORIFIC SOL ELITE CARTRIDGE

Colorific SOL ELITE is a high quality, solvent-based, pigment ink developed specifically for modified Uniform printers including: Uniform Cadet, Uniform Grenadier, other similarly modified Uniform printers. Available in both cartridges and in litre bottles.

### FEATURES & BENEFITS

- High end pigment for 2 years outdoor durability
- Low odor that fits unventilated working environments
- Vibrant colours for increased colour gamut
- Small pigment particle size for keeping the printheads clean and avoiding nozzle deflection
- Compatible with standard substrates (PVC, SAV, Paper, Textile)
- Fast drying time for best performance
- Enhanced print adhesion and chemical resistance
- ICC profiles available for a wide range of substrates for all printers
- Organic solvent for a safer working environment

Quality control (ISO 9002)

- Colorific guarantees product consistency batch after batch (colour density, viscosity, particle size...)
