

EPSON[®]
EXCEED YOUR VISION

Epson
Stylus Pro **9450**

Set a new standard in large format in-house production printing

This professional A0+/B0+ printer adds impact and productivity to larger scale retail, design or presentation materials. It combines speed and reliability with superb, consistent colour from Epson UltraChrome™ ink.

Create exceptional prints up to 44", from rich colour posters to precise line drawings and even screen masks*. This true in-house production printer combines quality, speed and consistency.

Epson UltraChrome ink ensures superb, long-lasting colour, while simple controls mean you don't need a dedicated operator to get great results. And productivity is further improved by high speed throughput and the reliability for overnight printing.

Speed, reliability and consistent quality – bring superb large format printing in-house

Superb, repeatable colour – Epson UltraChrome ink produces vivid, long lasting results time after time

4-colour inks, 8 nozzles – high speed, cost-effective ink system with two nozzles per colour

Skilled operator not needed – enjoy the user-friendliness of our consumer range in our professional printers

Get precise line drawings – perfect for computer design, high-quality visualisations and presentations

Improve your productivity – high print speeds and excellent reliability for overnight printing

Take control centrally – optional software enables remote printing from one location to several printers

Compatibility across with the Epson range – achieve consistent results with different printers

Key benefits:

- Fast, reliable, true in-house A0+/44" production printer
- Consistent quality from 4-colour Epson UltraChrome ink
- Add impact to large scale colour and technical prints up to 44"
- Combine high productivity and throughput with ease and value

Epson Stylus Pro 9450
